Mobile Radio Solutions - Always Ready to Hand

- ❖ The wristband and necklace transmitters allow releasing calls (e.g. for a nurse) by wireless control unaided without effort.
- ❖ Also lights, fans or door openers can be comfortably controlled by the transmitters.
- ❖ Comfortable switching at the push of a button from every position.
- ❖ Effordlessly enhancing electric controls using hand transmitters and radio wall switches.
- ❖ No need for cables, no dirt, no renovation – just switching where required.
- ❖ Security at night by switching the light via radio control directly in bed.

Improve the Quality of Life at the Push of a Button.
